# Acting as an **Executor** is a job for life.

- ⚠️ Being an Executor is a difficult and time-consuming job
- ⚠️ Appointed Executors can become too distressed to perform the role
- ⚠️ Decisions can make you unpopular with Beneficiaries
- ⚠️ The role carries personal legal liability

## What is **Executor Support**?

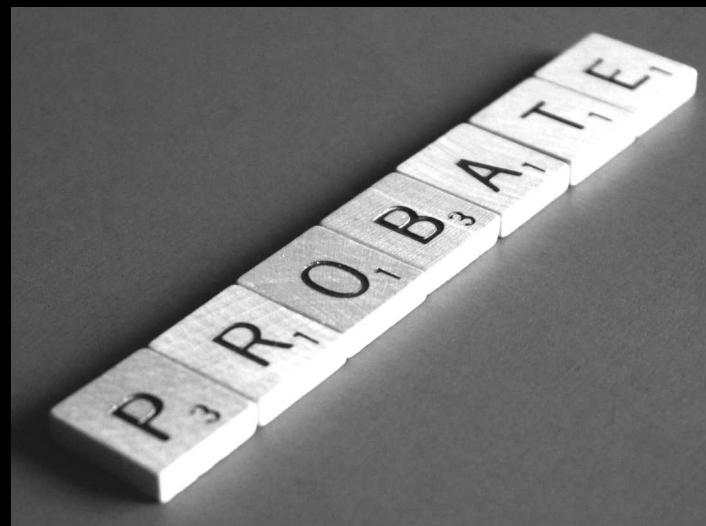

An Executor has to carry out certain tasks and duties in order to legally fulfil the obligations of the task. You have to deal with any day to day administration of the estate in the period before it can be distributed.

Executor Support is a service where we can help guide you through the processes that need to be completed after someone passes away.

We can assess the estate and gather in any assets or debts there might be. We can then offer guidance on how best to deal with the estate, and probate if it's needed.

We can help you to build a timeline of jobs to do and people to notify after a death and how best to ensure that the wishes in the Will are followed, or if there is no Will, explain what happens with the Rules of Intestacy.

**We are here to make an incredibly difficult time less stressful and provide clear structure and support to get you through the administration side of dealing with a loved one's estate.**

# What **services** do we provide?

- An initial consultation where an estate spreadsheet will be made with all assets and debts, and the next steps including relevant phone numbers, emails, and document requests.
- We can read the Will and tell you what it says.
- We can let you know the process if there isn't a Will.
- We can be with you to help contact the relevant companies and parties, and with our experience be able to tell you how to do this quickly and efficiently.
- We can help you prepare for applying for probate if this is needed.
- Face to face consultations where we can bring the technology needed to be able to make online applications and submissions.
- Video appointments where we can also share screens to help you make online applications and submissions.
- Follow up appointments in the future if you require further support.

£90  
per hour

We will always be very transparent with how long it may take to help you with the administration of the estate and offer full predictions of the costs involved prior to assisting you.
